DeltaVision®
Vision Benefit Plans for Illinois Groups

Vision benefit plans that combine choice, value and wellness.
Why offer a vision benefit plan?

- Eye exams can detect symptoms of diseases like diabetes, hypertension, multiple sclerosis, brain tumors, osteoporosis and rheumatoid arthritis.1
- 75 percent of Americans wear vision correction.2
- Two-thirds of employees would trade a vacation day for vision coverage.3

With the workforce aging and the increased use of computers leading to eyestrain and other related problems, vision care has become one of the most highly desired benefits. Eye health can also have a profound effect on worker productivity and overall health.

DeltaVision® Benefits Employers and Employees

With a DeltaVision plan, you’ll enjoy:
- Easy benefits administration and implementation
- Combined billing for vision and dental benefits
- Increased employee health and productivity
- An enhanced benefits package

Your employees will receive:
- Choice of independent and retail providers
- Lower out-of-pocket vision expenses
- Up to 40 percent off additional vision care purchases after using plan benefits
- Wide selection of frames including leading brand names at leading optical retailers

Large Network Choice

DeltaVision offers the best of both worlds – thousands of private practice providers along with the nation’s most respected optical retail brands such as LensCrafters®, Pearle Vision®, Sears Optical® and Target Optical®. All providers meet NCQA guidelines for credentialing and are continually monitored.

- Enrollees can select from any frame available at leading optical retailers.
- Enrollees can easily locate network providers through the Delta Dental of Illinois website, deltadentalil.com/deltavision, or by calling customer service.
- In-network providers are free to recommend the lens options that best meet the enrollees’ needs, without being restricted to specific labs or plan exclusions.

The Best Value in Vision Care

By promoting eye health, a vision plan adds significant value to your overall benefits package. Not only is vision coverage a highly desired benefit, but vision disorders cost businesses $8 billion in lost productivity each year. DeltaVision makes vision care affordable with access to a convenient network and high-quality plan options.

A Commitment to Wellness

Vision wellness plays an important role in the overall health and well-being of your employees. Annual eye exams can reveal vision-related problems like cataracts and glaucoma, as well as general health conditions like diabetes and hypertension. Early detection and treatment leads to healthier lives for your employees and reduced health care costs for your company.
