

Free Clinical Tool for You and Your Staff

As a dentist, you know better than anyone that prevention is critical to achieving good oral health — and education is a vital part of prevention. That's why Delta Dental of Illinois offers members free access to an online risk assessment tool — the LifeSmile™ Score Oral Health Assessment by PreViser.

Why Participate

- PreViser's free analytic software gives you an easy-to-use, objective way to measure, understand and communicate your patients' risk and disease level as a simple numeric score.
- PreViser makes it easy to track changes in risk level and disease severity over time to evaluate treatment effectiveness and outcomes.
- Dentists using PreViser report that because patients better understand their oral health needs, they are more compliant and, as a result, are healthier.
- Patients with certain medical conditions or oral health issues may even qualify for additional preventive care through our Enhanced Benefits Program.

How to Get Started

For more information, contact our Professional Relations department at **630-718-4990** or pr@deltadentalil.com.

*Only patients with Enhanced Benefits will qualify for additional benefits based on their risk score.
