Dental practices continue to operate with safety measures in place to help meet the oral health needs of their patients during the COVID-19 pandemic. While infection control has always been a top priority, dental offices have been using additional safety protocols to prevent the spread of COVID-19, following state and national guidelines to help keep patients and staff healthy. Here is what you may experience when returning to the dentist.

What to Expect
Returning to the Dentist

Dental practices continue to operate with safety measures in place to help meet the oral health needs of their patients during the COVID-19 pandemic. While infection control has always been a top priority, dental offices have been using additional safety protocols to prevent the spread of COVID-19, following state and national guidelines to help keep patients and staff healthy. Here is what you may experience when returning to the dentist.

If you have any questions about safety measures, contact your dentist directly. Please remember to be patient with your dental office as they continue to provide care safely.
